

SYED ZAIN UL ABIDEEN SHAH

CLOUD ENGINEER

Multan, Pakistan | zainbukhari1995@gmail.com | +92 304 7207973

SUMMARY

A motivated assistant cloud engineer with over a year of experience supporting cloud projects. Skilled in assisting senior engineers with deployment, maintenance, workflow automation, and performance monitoring to ensure optimal system performance. Eager to join a dynamic team to expand my technical skills, learn from experts, and contribute to improving cloud infrastructure.

EDUCATION

Masters In Computer Science (MCS)	2017 - 2019
University of Southern Punjab, Multan	3.2 CGPA

PROFESSIONAL EXPERIENCE

Quswa Traders Assistant Cloud Engineer	Jan 2022 - Present
<ul style="list-style-type: none">• Provided key support to the senior engineering team in the daily management and maintenance of the Huawei Cloud infrastructure.• Handled hands-on deployment of Linux virtual machines (ECS), configuration of network services (VPCs), and management of storage solutions (EVS & OBS).• Played an integral role in deploying enterprise web applications by ensuring the proper integration of all necessary cloud resources.• Applied foundational knowledge of the Huawei Cloud ecosystem to troubleshoot issues effectively and maintain overall system stability.	
Security Organization System Pakistan (Pvt) Ltd. HR Assistant	Oct 2021 - Dec 2021
<ul style="list-style-type: none">• Assisted the end-to-end hiring process, from posting jobs and screening candidates to scheduling interviews.• Managed all administrative tasks for employee onboarding and offboarding, including preparing contracts.• Maintained accurate employee records and HRIS data, providing timely information for payroll processing.• Acted as the primary point of contact for all employee inquiries regarding company policies and benefits.	
Ideal Girls College Multan Computer Lecturer & IT Administrator Officer	Oct 2019 - Oct 2021
<ul style="list-style-type: none">• Delivered computer science lectures, conducted practical labs, and supervised student projects.• Managed and maintained all campus IT infrastructure, providing technical support to staff and students.• Handled departmental records and coordinated academic schedules to ensure smooth daily operations.	
Freelance Digital Specialist Web Development & Marketing	Oct 2019 - Continue
<ul style="list-style-type: none">• Built high-performance WordPress websites focused on user experience and executed technical SEO strategies to significantly boost organic search rankings.• Ran targeted marketing campaigns and wrote compelling, SEO-optimized content to increase brand awareness.• Successfully managed projects end-to-end, ensuring timely delivery and high client satisfaction.	
Zavia School System Multan Computer Teacher	Sep 2016 - Oct 2017
<ul style="list-style-type: none">• Developed and delivered engaging, age-appropriate computer lessons covering topics from MS Office to basic programming and internet safety.• Conducted hands-on lab sessions and assessed student skills through practical tests and project-based evaluations.• Adapted teaching methods for diverse learners and collaborated with school staff to meet all academic goals.	

PROJECTS

Deploying Enterprise on Web

- Architected a resilient solution using a secure VPC, with separate ECS instances for web servers and RDS for the database.
- Ensured high availability and scalability by implementing an Elastic Load Balancer (ELB) and an Auto Scaling group to manage traffic and adjust server counts based on CPU load.
- Maintained operational oversight by using the Cloud Eye service to continuously monitor the health, performance, and security of all deployed resources.

Compute Services on Huawei Cloud

- Deployed and managed both Windows and Linux Elastic Cloud Servers (ECS) within a secure Virtual Private Cloud (VPC).
- Performed essential server pre-configurations and utilized the Image Management Service (IMS) to capture them as "golden master" private images.
- Managed the image lifecycle and successfully launched new, identical ECS instances directly from these custom templates to accelerate future setups.

Storage Services on Huawei Cloud

- Block Storage (EVS): Managed the full EVS disk lifecycle on both Windows and Linux, including initialization, formatting, and creating snapshots for backup and cloning.
- Object Storage (OBS): Performed essential object storage operations by creating buckets and managing file uploads and downloads for unstructured data.
- File Storage (SFS): Deployed and mounted a Scalable File Service share across both Windows and Linux servers, demonstrating seamless cross-platform file access.

Huawei Deep Seek Installation

- Infrastructure Setup: Deployed a high-bandwidth ECS and installed the Ollama framework, using reliable OBS backups to ensure speed and success.
- Model Deployment: Efficiently downloaded and staged the large DeepSeek 1.5B model from a pre-configured OBS bucket.
- Execution: Successfully launched the LLM, enabling direct, interactive conversations with the AI from the server's command line.

CERTIFICATIONS

- Certificate in Digital Marketing from Google.
- Global Trends for Business and Society University of Pennsylvania (US) Online.
- Amazon Private Label (PL) for SMEs Small and Medium Enterprises Development Authority (SMEDA), Government Ministry.
- Content Marketing and Advertisement from BZU e-Rozgaar.
- Digital and Social Media Marketing from e-Rozgaar.
- Certificate of Proficiency in the English Language.
- Annual Certification of Character Building Society USP from National Accountability Bureau (NAB).
- Certificates in Educational Workshops & Co-Curricular Activities.
